

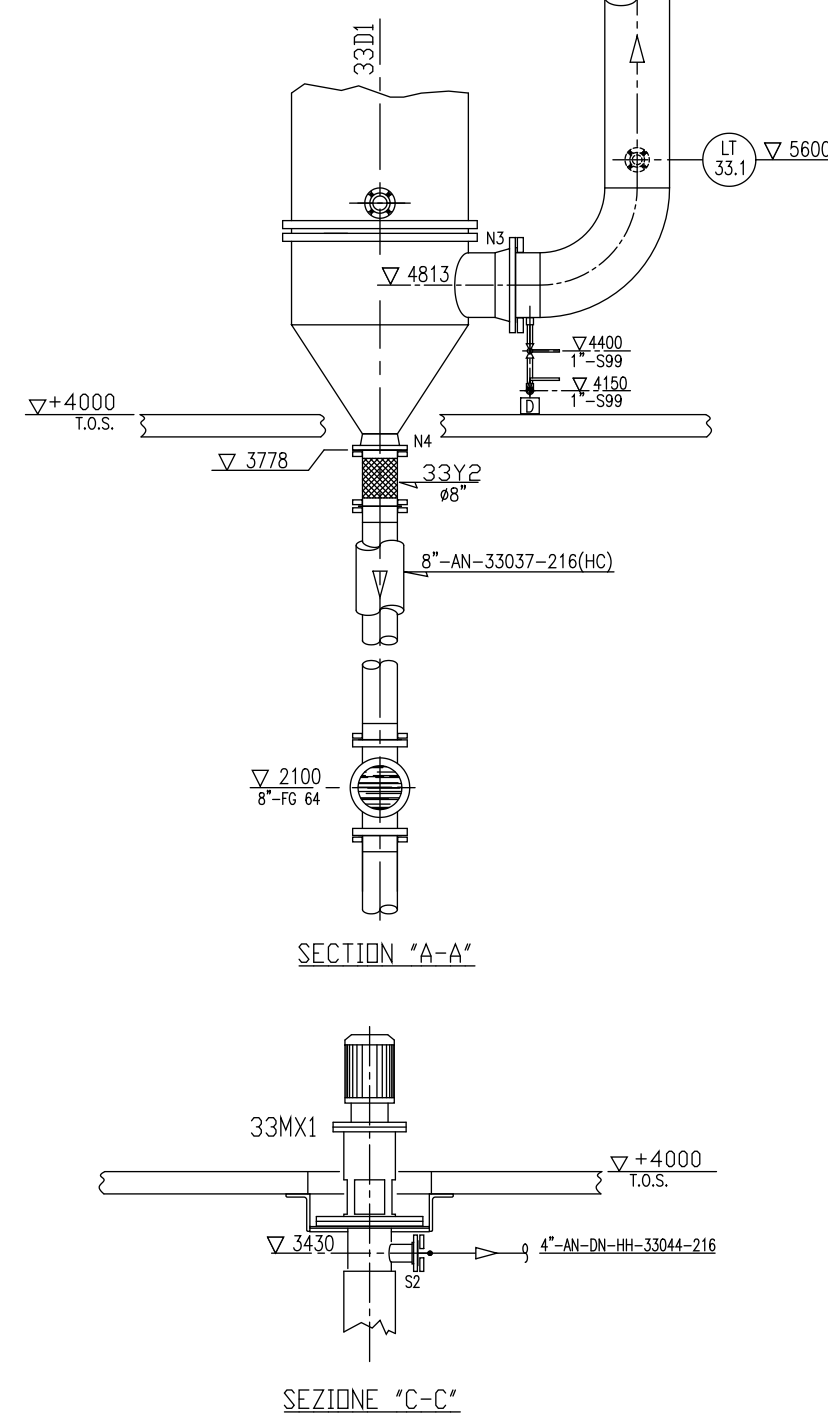

Figure 10: Typical Section Details of a 12' x 12' Box Culvert. The figure contains six sub-diagrams (a-f) showing cross-sections of the culvert at different locations. Each diagram includes a profile view of the culvert structure with a 12' x 12' box, a 250' length, and a 12' depth. The diagrams show the culvert's position relative to the ground surface (indicated by a hatched area at +0.00) and the water level (indicated by a dashed line). The diagrams are labeled with elevation markers (e.g., 12' 1408, 12' 1500, 12' 1618) and culvert dimensions (e.g., 12' x 12', 12' x 12', 12' x 12'). The diagrams are labeled with 'FOR ORIENTATION TO BE DEFINED'.
